### Applicant Requirements

1. The exact location and design of the disposal unit will be determined in coordination with the Kansas Department of Health and Environment (KDHE).
2. Disposal may not begin until this application is approved by KDHE.
3. The waste being disposed of will only be waste generated from the natural disaster described in this application or from additional demolition required because of the natural disaster (unless otherwise approved in writing by KDHE).
4. If additional demolition is required after the disaster and the waste is from multiple houses or a public or commercial building, the applicant will coordinate with KDHE's Asbestos Program before any demolition or debris handling begins.
5. No waste may be brought to the site after the approved disposal period (unless approved in writing by KDHE).
6. After disposal is complete, the disposal area will be covered with at least of 2 feet of soil and seeded, rocked, or paved (unless otherwise approved in writing by KDHE). The final grades for the area will: be compatible with and not detract from the appearance of adjacent properties; facilitate drainage from the area; and prevent ponding of water.

**Additional Applicant and/or Property Owner Requirements** *[Applicable if initialed by a KDHE representative]*

\_\_\_\_ PROPERTY OWNER: Within 30 days of site closure, prepare and file a restrictive covenant with the County Register of Deeds. Submit a copy of the filed restrictive covenant to KDHE\* within 30 days of filing. A restrictive covenant form is available on the KDHE Bureau of Waste Management website (Form DS130).

\_\_\_\_ APPLICANT: Within 60 days of site closure, submit to KDHE\* a closure report and post-closure plan that includes: (1) an "as-built" sketch or aerial photo (e.g., Google Earth) of the site, showing the location and dimensions of the disposal pit, property lines, and nearby structures, roads, water bodies, etc; (2) the final cover thickness; (3) the estimated quantity (cubic yards) of debris disposed of and if the debris was compacted; (4) the dates of final disposal and completion of cap construction; (5) site storm water drainage characteristics; and (6) plans for long-term site inspection and repair.

\_\_\_\_ APPLICANT: Within 90 days of initial placement of waste, submit a permit modification to KDHE\* to incorporate the disposal area into facility permit #\_\_\_\_\_.

\* Submit information to KDHE by mail to the address at the bottom of page 1 or by email to [kdhe.bwmweb@ks.gov](mailto:kdhe.bwmweb@ks.gov)
